

DIY Hanukkah Confetti Poppers

Confetti poppers are an exciting addition to a Hanukkah table setting. They're a colorful, cheerful way of celebrating and pretty enough to use as table decor or give to guests as a party favor.

Materials Needed

- 8 clear push-pop containers with snap lids
- blue, silver and gold confetti, approximately 8 ounces total
- push-pop stand (optional)
- scissors
- Hanukkah gift wrap
- craft glue or double-sided tape

Prep Containers and Confetti

Assemble the pieces of the plastic push-pop containers according to the package directions. Pour each type of confetti out into separate bowls to make filling the containers easier.

Fill the Push-Pop Containers

Remove lids from push-pop containers and place them on the stand, if using, to hold in place while they are being filled. Otherwise hold the container upright in one hand. Fill by hand with layers of the different assorted confetti all the way to the top of each container. **Tip:** Mylar confetti is prone to static cling and the pieces might stick together so you may need to fluff the confetti with your fingers as you fill the containers.

Replace Lids

Once containers are filled, replace each push pop's lid securely.

Cut Out Decorative Elements

Cut out an individual Star of David or other Hanukkah symbol from gift wrap, in a size that fits the lid of the confetti poppers

Attach Decorative Elements to Lids

Attach cut-out decorative pieces to the center of each confetti popper's lid with craft glue or double-sided tape. **Tip:** Hanukkah-themed stickers in a size that fits the lids can also be used.

Place Finished Confetti Poppers on Stand

Place all confetti poppers on the push-pop stand until they are ready to be given to guests as a favor or added to the Hanukkah table as decor.
